

THE DESIRE TO GO BEYOND COMBINES WITH CREATIVITY WITH THE GOAL OF MAKING DREAMS COME TRUE.
THE KEY TO DOING SO IS ACTION! GUIDED BY CURIOSITY AND SUPPORTED BY TECHNOLOGICAL TOOLS, WE BRING TO LIFE A PROCESS IN
WHICH IDEAS TAKE ON A TRUE PHYSICAL AND TANGIBLE MANIFESTATION.

MAKE IT

Real are the experiences we want to make you live, at the center of each of our creations lies emotion.
Feelings are part of reality and, above all, the human experience.

REAL

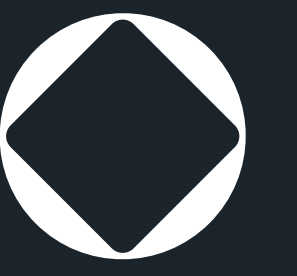

Our focus is the relationship between technology and human interaction. We believe that this combination can expand boundaries and achieve what is unreachable for many.

Make it Real

This is the goal and our invitation to dare. Only by doing so, we can truly achieve great things and explore new realities.

ON-SET SUPERVISION

We work closely with your production team, planning on-set activities and ensuring comprehensive coverage for post-production needs, in order to achieve extraordinary results and meet your diverse requirements.

VISUAL EFFECTS

We work closely with film productions. We are capable of creating highly impactful visual effects, such as explosions, destructions, liquid simulations, as well as character and object animations that seamlessly integrate with the live footage.

COMPOSITING

We combine visual effects flawlessly, creating a seamless fusion for extraordinary visual impact. We employ advanced techniques to exceed your expectations and transform your productions into visual masterpieces.

Compositing

IMDb

In the captivating short film 'Wind Day,' directed by Enrico Poli and produced by Pharos Film Company, we enriched the film by incorporating 3D smoke and visual effects. We worked closely with the production to ensure that our services integrated harmoniously with the cinematic narrative.

Compositing

IMDb

In the film 'Avanzers,' our team did an outstanding job in animating the spaceship and seamlessly integrating it into the live-action shots.

The end result was a perfect blend of reality and fantasy, where the spaceship came to life and organically merged with the film.

Kabum®

Visual effects

3D modeling
Rigging
Animation
Cloth simulation

In a recent advertising campaign, Kabum collaborated with a communication agency to create a fun visual effect with a superhero as the protagonist. The goal was to create a visually appealing and humorous effect that seamlessly aligned with the tone and intention of the advertisement.

Rendering
Compositing
Video and still export

Using advanced animation and rendering techniques, we were able to recreate a realistic underwater environment.

In addition to the video, we also utilized the 3D scene to create high-resolution static images, allowing the client to use them for promotional purposes.

Produttori di Manduria

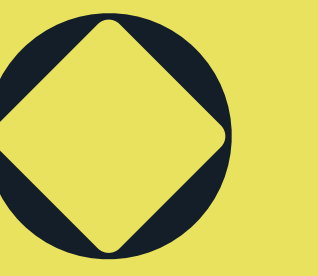

We go beyond the boundaries of technology,
creativity, and innovation

to offer not only memorable content,
but unforgettable experiences.
